EDUCATION

BIT   Bangalore, India

MCA (Master Of Computer Application)   2021 - 2023

CGPA: 8.6

EXPERIENCE

Dendron IT Solutions | Assistant Software Developer   Hassan, India | Oct 2023 - Oct 2025

Spearheaded the development of the Education Institute Management System (EIMS) to automate student registration, admissions, fee tracking, and result processing, improving efficiency across educational institutions. Independently developed multiple dynamic college websites, managing both UI and server-side functionality to enhance performance and user experience. Contributed to the ILS Books eBook platform built with ASP.NET Core MVC, implementing features like advanced search, secure checkout, and an admin panel for content management. Skilled in ASP.NET WebForms, ASP.NET Core MVC, SQL Server 2019, and Bootstrap, with experience building responsive, high-performance web applications using Visual Studio 2022.

Pixela Media Pvt. Ltd. | Software Developer   Hassan, India | Oct 2025 - Present

As a Team Lead and Software Developer at Pixela Media, I guide and mentor a team of developers while managing client relations and project delivery. I lead the design and development of dynamic web applications, ensuring high performance and user satisfaction. Currently spearheading a live school bus tracking system with GPS integration, enhancing safety and operational efficiency for educational institutions. Skilled in ASP.NET Core MVC, SQL Server, and Bootstrap, with a strong focus on building responsive, data-driven web solutions that meet client needs and business goals.

SKILLS

Programming Languages:	C#, Java, JavaScript
Libraries/Frameworks:	ASP.NET WebForms, ASP.NET Core MVC
Tools / Platforms:	Visual Studio 2022, GitHub, Figma, Flutter, Bootstrap
Databases:	SSMS, SQL Server

PROJECTS / OPEN-SOURCE

ILS Books Online eBook Platform   *ASP.NET Core MVC, SQL Server, Bootstrap*

An eBook discovery and shopping platform that allows users to search for, view, and securely purchase books online. Developed core features including dynamic book listings, advanced search by title/author/category, secure payment integration, and an admin dashboard for book management.

Education Institute Management System (EIMS)   *ASP.NET WebForms, SQL Server 2019, Bootstrap*

A comprehensive management system designed to streamline administrative tasks for educational institutions. Developed modules for Admissions, Student Records, Fee Management, and Academic Reports. Integrated secure data handling, user authentication, and automated reporting to enhance operational efficiency and transparency across departments.
